

Have you been admitted to hospital with an **asthma attack**?

This hospital is involved in a national project to help make the care of patients with asthma better.

From **November 2018**, we will collect information about all people admitted to this hospital with an asthma attack. This includes confidential information.

This project is called the **National Asthma and COPD Audit Programme (NACAP)**.

This information will be used to help improve asthma care for patients.

For more information about the project or how to opt-out, please ask a member of the hospital team for an information leaflet.
